| AND50 | 50 Amp |
| AND175 | 175 Amp |
| | |
| | |
| | |

Testers: Automotive Rectifier Tester

| Part No. | Automotive Rectifier Tester |
|----------|--|
| RCT208 | A quick and easy way to test rectifier diodes in all types of alternators. Each diode is tested for short circuits, open circuits, forward conduction and reverse blocking. The condition of the rectifier is indicated by LEDS. It takes less than ten seconds for a complete test. |

Testers: Ignition Module, Distributor & CoilTester

| Part No. Ignition Module, Distributor & Coil Tester This tester is indispensable for fault finding in distributor (DIS) electronic ignition systems. Tests both Hall effect and Magnetic type modules for correct timing pulses to the ECU & checks the coil current across the RPM range. Can verify the | | |
|---|----------|---|
| fault finding in distributor (DIS) electronic ignition systems. Tests both Hall effect and Magnetic type XTE500 (12V) XTE500 modules for correct timing pulses to the ECU & checks the coil current | Part No. | |
| performance of conventional/multi coil packs. Also tests crank & cam sensors. | | fault finding in distributor (DIS) electronic ignition systems. Tests both Hall effect and Magnetic type modules for correct timing pulses to the ECU & checks the coil current across the RPM range. Can verify the performance of conventional/multi coil packs. Also tests crank & cam |

Testers: Automotive Regulator Tester

| Part No. | Automotive Regulator Tester |
|------------------------------|---|
| XTE500 (12V) XTE500 -220V | This tester automatically tests 12V and 24V regulators for pass or fail and accurately displays the regulating voltage. |
| | It tests in a dynamic mode i.e. the regulator is constantly switching on and off when under test. Useful for voltage regulator manufacturers, auto-electricians and warranty departments. |

Testers: Replacement Harness

| Part No. | Replacement Harness |
|----------|--|
| HNS100 | Ignition Module, Distributor & Coil Tester |

Testers: Analog Volt Amp Tester

| | • |
|----------|--|
| Part No. | Analog Volt Amp Tester |
| VAT280 | Current 1:-150 to +150 DC |
| | Current 2:-IA to +IA DC |
| | In increments of ImA |
| | Voltage: -99 to +99Vdc |
| | High accuracy to end of battery life. Very low current consumption. |
| | |
| | |

Testers: Dual Current Digital Volt Amp Tester

| Part No. | Dual Current Digital Volt Amp Tester |
|----------|---|
| VAT278 | Current: 0-100aDC |
| | Voltage: 0-50Vdc |
| | Precision moving coil meters |
| | Rugged metal case |

Testers: DP Regulator Adapter

| Part No. | DP Regulator Adapter |
|----------|--|
| TA277 | DP type regulators get their drive signal from the ECU. Ordinary testers will damage the DP type regulator. |
| | This adapter when used with the Terastra 279 Regulator tester will easily test D-P type regulators. Also provides AC Stator signal to test - active LAMP function. Model 277 |

Tools: Combitools

| Part No. | Pulley Combitool |
|------------|-----------------------------|
| CO-28580-I | Suits Bosch, long shaft and |
| | RotoRx decoupler pulleys. |
| | Shaft 114mm |
| | |
| | |
| | |
| | |

| Part No. | Pulley Combitool |
|------------|------------------|
| CO-28580-3 | Suits Valeo |
| | |
| | |
| | |
| | |
| | |
| | |

| Part No. | Pulley Combitool |
|------------|--------------------|
| CO-28580-2 | Suits Denso types. |
| | Application Volvo |
| | |
| | |
| | |
| | |
| | |
| | |

| Part No. | Pulley Combitool |
|------------|--|
| CO-28580-4 | Suits Renault - for assembly of rubber clutch pulley |
| | |
| | |
| | |
| | |
| | |
| | |
| | |

| Part No. | Pulley Combitool |
|------------|---------------------------------|
| CO-28580-5 | Suits Bosch / Valeo. Shaft 74mm |
| | |
| | |
| | |
| | |
| | |

BRANDS OF TAS AUTOMOTIVE

GABRIE L manufactures a comprehensive range of dampers that are designed and engineered to suit the conditions of South African roads. These are available in shock absorbers, spring seat shocks, struts, strut cartridges and steering dampers. Gabriel also manufactures gas springs that ease the opening and closing of car boots, bonnets, hatches, hatchback windows and canopies. Gabriel supplies kits and accessories for shocks and struts.

V DO is a global brand providing state of the art automotive electronic and mechatronic solutions capturing the automotive future. The extensive range of VDO quality products covers the automotive, marine, commercial, industrial and specialised OEM market. The brand is associated with only the highest quality, and embodies the principles of individual mobility, driving pleasure, safety, environmental responsibility and cost efficiency.

ECH LIN is acknowledged as a premium brand in the ignition, fuel, cooling and switch category. For nearly 60 years Echlin has remained at the forefront of product range development, boasting the widest range of radiator caps, oil filler caps, locking caps, ignition products, water pumps, fuel pumps, carburettor kits, thermostats and switches in the South African automotive aftermarket. Echlin is the industry reference in range and quality.

A UT OCOM has been recognised as a leading brand in the suspension and steering market since 1978, and continues to remain at the forefront of the suspension market through technical agreements with global OEM manufacturers. Autocom suspension and steering components are manufactured from only the highest quality material to ensure that these safety critical parts conform to internationally recognised OEM quality standards.

ACSA-MA G is one of South Africa's leading brand of auto electrical products which includes starters, alternators and rotational parts such as solenoids, bendix drives, armatures, regulators and rectifiers. The brand is also associated with a wide range of quality auto electrical accessories, including brackets, cables, sleeves, fuses, cable ties, plugs, sockets, tape and terminals. ACSA-MAG prides itself on quality and range availability.

MA G BRAKES , a true South African brand in the heavy-duty airbrake market, is widely acclaimed for its supply of quality airbrake parts and hydraulic cylinders to the brake industry. Mag Brakes is not only recognised for their extensive range of airbrake, brass and steel fittings, adaptors and comprehensive range of grease nipples, but also for their design and installation of ABS, EBS and hydraulic brake kits for trucks and trailers to SABS specification.

SH URLOK is a leading South African brand in the vehicle security market with over 20 years experience in developing, manufacturing and providing vehicle security solutions to both the OEM and aftermarket industry. The extensive product range covers a comprehensive array of vehicle immobilisers and alarms, feature rich central locking systems with remote control and keyless entry capabilities, manufactured to VESA certification.

W ARN , with more than 60 years of research, development and manufacturing experience, is undoubtedly the premium global winch brand. Manufactured for extreme performance, WARN provides a range of winches for automotive, industrial, commercial and recreational needs as well as a full range of off-road accessories. The company's commitment to engineering excellence can be seen in the products' quality, durability and innovation.

HI- LIFT jacks are just about the most versatile piece of off-road equipment you can buy. It doesn't matter if you are in the Namib desert, the African jungle, or the Bushveld, Hi-Lift jacks are designed to help you survive the most demanding situation. Manufactured to the most exacting standards, with only the highest quality material to withstand the demands of these conditions, it will never let you down.

EU ROCAB LE has more than 35 years experience in the design, development and manufacturing of ignition leads, and is a global brand in the automotive spare parts market. It continues to offer the widest range for the aftermarket whilst developing and manufacturing tailor made ignition leads for industrial engines. Eurocable ensure that OEM standards are always met through the provision of ISO 9001 and TS16949 manufacturing standards.

CON TITECH, a brand of Continental Corporation, is a leader in the power transmission market, manufacturing everything from power transmission belts and matched components right through to complete belt drive systems. Quality and innovation have ensured that the Contitech range of products deliver proven performance in the automotive industry, and ensure that the brand continues to live up to its motto "Our Drive – Your Success"

TRUCK- LITE has been providing visibility systems since 1955 and continues to remain a leading global brand in the truck and trailer market. It has always been at the forefront of innovation: from the era of bulb replaceable metal lights to sealed and shock resistant poly carbonate lights, from bulbs to light emitting diodes. Truck-Lite continues to innovate and provide quality products "from the front of the truck to the rear of the trailer."
